EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael P. Dunnam on 1/23/06.

2. The application has been amended as follows:

In claim 9, page 3 of 11, the paragraph

"verifying the static string to determine that it is an accurate transformation of the at least a variable parameter according to the provided process and when the determination is that the transformation is accurate, providing an indication that the password is verified, wherein the known password is provided by a user and the static string is provided by the user, and wherein the known password is entered as a string of characters and wherein at least a character of the string of characters is indicative of a variable parameter."

has been changed to

--verifying the static string to determine that it is an accurate transformation of the at least a variable parameter according to the provided process and when the determination is that the transformation is accurate, providing an indication that the password is verified, wherein the known password is provided by a user and the static string is provided by the user, wherein the known password is entered as a string of

characters and wherein at least a character of the string of characters is indicative of a variable parameter and wherein the string of characters is parsable to form the known password, the parsing distinguishing variable parameters from static parameters within the known password.—

In claim 10, page 3 of 11,

“(Original)”

has been changed to

--Canceled—

Allowable Subject Matter

3. This action is in response to the communication dated December 23, 2005 with the amendments to claims 2-3, 5-6 and 9, the cancellation of claims 1, 4, 8, 11-19 and the addition of claims 20-27.

4. Claims 2-3, 5-7, 9 and 20-27 are allowed.

5. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a method of generating a dynamic password that changes as a function of various parameters. The independent claim 9 identifies the uniquely distinct feature of parsing the string of characters to form the known password, the parsing distinguishing variable parameters from static parameters within the known password, and the independent claim 20 identifies the uniquely feature of providing a process for transforming at least a variable parameter into an ordered string

of characters, the process including providing data to a user for interpretation by the user and then comparing the user's interpretation to a predetermined known interpretation. The closest prior arts, Weiss (4,720,860), Yu (WO 00/62458) and Jalili (6,209,104) fail to anticipate or render the above limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
